

## Bond Projects Updates for Monday 11 February 2013

### Community Center

- Wood framing continued along the west side of the project.
- Field welding and inspection of metal framing components continued.
- Raising steel columns and trusses estimated to begin Tuesday 2/12/2013.

Looking south from near the future front entrance. Preschool rooms will be to the right. (20130204-1436)

Looking north – existing playground at left, classrooms directly ahead. (20130204-1440)

Looking NNW: Above – Beginning preschool rooms and office walls. (20130204-1445). Below – 2 days later, making great progress on the all the west side walls. (20130206-1430)

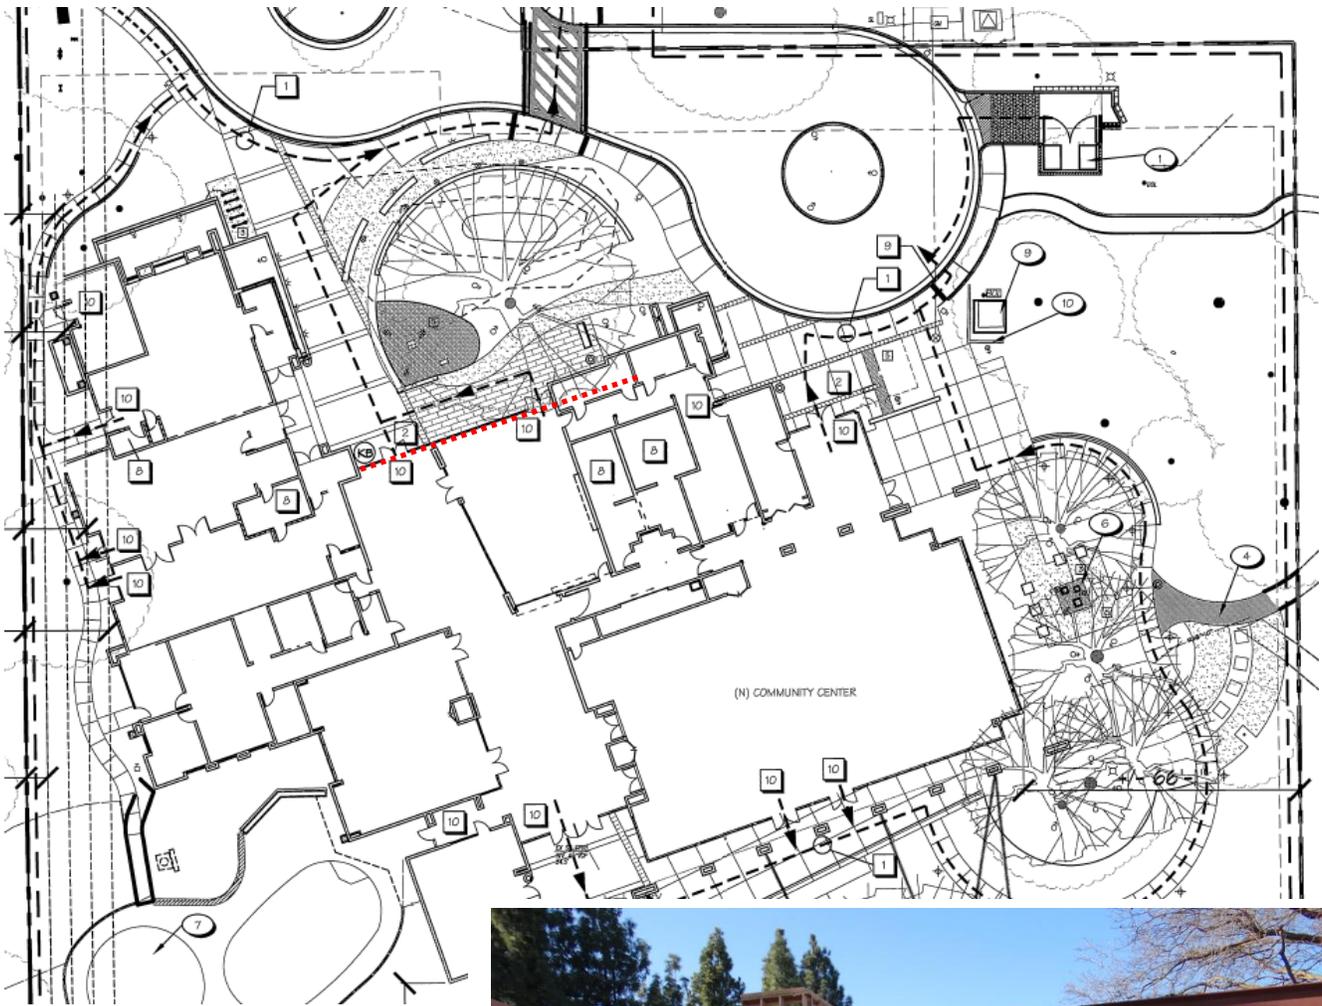

Looking west from the future restroom area. (20130206-1433)

Looking south at the future front entry walkway area, currently in use for construction equipment access. (20130208-1716)

Above: dashed red line approximates the location of the 75' steel beam. From west to east, it spans the main entry, McHale Room, and a storage room.

Right: view north from the future entry hall out the front entrance. (20130208-1716)

Pleasant Oaks Park

- Project is on target to go out to bid in March 2013.

Senior Center

- Punch list items are nearly completed – some parking lot remedial work upcoming.
- Please see our website for exciting rental and activity opportunities!
