

## Bond Projects Updates for Monday 23 April 2012

### Senior Center

- Work continued on the octagonal roofs
- Window frames were installed mostly in the north and west sides of the building
- Parking lot irrigation work proceeded

Above: Framing the CC Café roof  
(20120416-1521)

Right: Looking up and east in the  
CC Café (20120419-1639)

CC Café roof framing and plywood layer complete (20120420-1651)

Right: Window frames along the west side & lower one in the front of the library/lounge  
(20120418-1533)

Below: Multi-Purpose Room windows all wrapped. Installed window frames in classrooms and part of Dance Studio  
(20120420-1653)

### Teen Center

- Stucco finish coat applied to most of building exterior – 3 of 4 colors visible so far

The stucco finish coat is pigmented, so the building should never need painting.

The bare plywood area is waiting for cedar siding.

The colors will change as the stucco dries. The changing quality of light throughout the day makes the colors appear to change as well.

(20120420-1629)

Looking south from the east side near the park restrooms

(20120418-1625)

Looking at the east wall – restroom doorway on the right & storage doorway left.

(20120419-1625)

View of three colors where the Sprayground filter building meets the new Teen Center. The filter building is the grey color.

(20120420-1631)
