

Bond Projects Updates for Monday 8 April 2013

Community Center

- Framing, roof joists, and sheathing work continued.
- Plumbing: Installation of the fire sprinkler pipes began.

The large steel beam spans the front entry, McHale Room, and storage areas. (20130405-1649)

Above: The McHale Room and main entry have been partitioned with framing. (20130405-1650)

Right: The McHale Room partition seen from the south section of the main entry hallway. (20130405-1651)

Looking south through classroom - Vocational Room #3 toward Taylor Blvd. (20130403-0842)

Looking WNW into classrooms – Vocational Rooms #1 & #1 – which can be separate or joined by opening a folding partition. The supporting beam and stowing area for the partition are indicated by the arrows. (20130405-1652)

Example of the fire sprinkler system piping currently being installed throughout the building. This is in the Supervisor's Office. (20130403-0812)

Looking east through the Perera Pavilion from inside the Dance Studio. (2013003-0848)

The main entry for the events room (Perera Pavilion) now has roof framing. (20130405-1700)

Pleasant Oaks Park

- Bid release and Pre-bid Walk-through was on Tuesday April2, 2013 at 10:00am

Prospective bidders tour the site with the project team during the pre-bid walk-through. (20130402-1049)
