- SW corner bioswale construction continued.

The McHale Room
frosted glass panes:

Left – from the main
lobby and Below – from
inside the room.

Both faces of this wall
will be finished with
stone.

(20130903-1611
20130903-1612)

Above: the front face of the feature wall forms have been set in place.

Installation of metal roofing material is nearly completed.

(20130905-0920)

Above: When completed, this walkway will extend the length of the west side of the building.

(20130905-0925)

Right: Fresh flatwork for the Preschool playground.

(20130905-0925)

Site work continues along the south side of the building. (20130905-0938)

A steel trellis will be erected over the events entry soon. Its top will be fitted with glazing panels. (20130905-0946)

Pleasant Oaks Park

- Recycled water vault boxes were installed flush with the walkway for ADA compliance.
- Concrete curb and gutter poured along the Hawthorne parking lot.
- Overall site work continued.

Setting the concrete vaults for recycled (irrigation) water.
(20130906-1124)

Left & Below: curb and gutter being poured in the forms along Hawthorne.
(20130906-1129)
