

Bond Projects Updates for Monday 23 December 2013

Community Center

- Application of exterior finishes continued, including paints and Trespa panels.
- Site-work continued: electrical, irrigation, and walkways.
- Fibar (a specialty wood fiber product) was installed in the playground.
- Interior data cabling, lighting fixtures, and floor finishes installations continued.
- Installation of restrooms fixtures began and cabinetry continued.
- GRAND OPENING scheduled for Sunday January 26th – check our website for details!

Above and right: finish paints are being applied to the building.

(20131216-0932 & 20131218-1539)

The forms were removed from the monument sign base on Taylor Blvd.

(20131216-0936)

New Fibar (specialty wood fiber materials for playgrounds) being installed in the play equipment pits.
(20131217-0955)

The play equipment pits are filled to the concrete rim with Fibar material.
(20131218-0913)

Paved connector path from the gazebo to the Community Center site.
(20131216-0935)

Close-up view of one of the new pathway bollard lights east of the events rooms.
(20131220-1509)

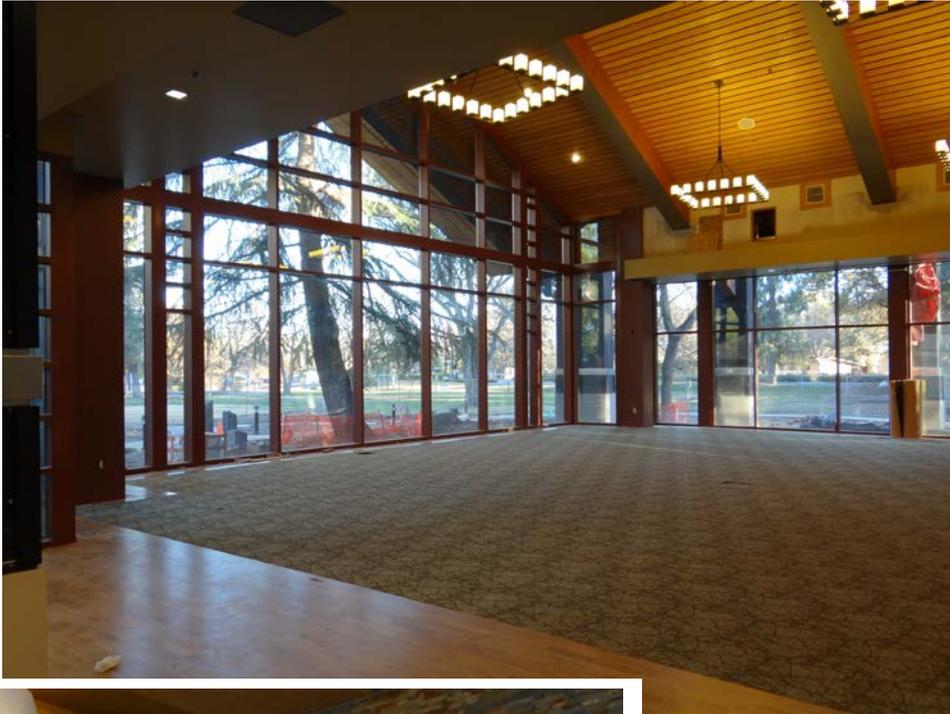

Carpet installation completed in the Perera Pavilion. Operable wall sections are still sporting their protective wrap.

(20131219-1656)

Looking SE through the Perera Pavilion across the newly-installed carpet.

(20131219-1656)

Carpet installation complete in the McHale Room.

(20131219-1654)

Carpet installation progressing in the main lobby (adjoining the McHale Room in this photo).
(20131210-1455)

Pleasant Oaks Park

- Primary activity until March 2013: The park will remain fenced off from access so the sod can establish strong deep roots, ensuring everyone can enjoy healthy playing fields for years to come.
- GRAND OPENING scheduled for Sunday March 2nd – check our website for details!

View NNE across the park from Santa Barbara. (20131202-1501)
